When we reached out to Donny Couto to congratulate him on all of Couto Homes' multiple Star Awards and request his permission to share pictures of the award winners, he replied, "We'd be honored even for the smallest feature! I remember starting out 20 years ago and looking up to a local builder named Chris Thomas. One day I saw a feature of him on the cover of *Building Savvy* and was in awe. I hope one day we can show enough excellence in industry to receive that same honor!" (*Danny you've made our list to receive a full feature. We would love to do a full Savvy Builder feature on you in 2020!*). Meanwhile, enjoy these photos of the winning project by Granbury-based Couto Homes. ▼
